What days and times will work for us as a team, we seriously need to continue to practice. I know many guys got there schedules switch, and some guys are just being lazy and not going.  
Do we stick to earlier saturday practice or try sunday. Weekday afternoon? Everyone post your availability.

Im up for saturdays 10am, 11am  
or sundays 10 am, 11am start times.  
I do work weekends but i can go in at Midnight or 1am to get out and ready be 10am-11am  
practice. 2-3 hours like normal.

Weekdays will do, but the lights situation will affect us later since the sun will be setting sooner in the upcoming months.
